

I LOVE MY APPRENTICESHIP!

Craig Fenn, RFT Services, Level 2 Multi Skills Apprentice

- **Where did you go to school?** Dereham Neatherd School, Easton College
- **What subjects did you study?** At school my chosen subjects were PE, French and Resistant Materials
- **Why did you choose an Apprenticeship?** It's the best way to move forward in the working world and a great way to learn new skills.
- **What path did you take to get to your current position?** Went from school, to then do 2 years of multi construction at college which involved all the core construction subjects and now I'm on this apprenticeship.
- **What does a typical day in your role look like?** Whilst working as a multi you rarely have a typical day, sometimes you could be doing 5 small jobs a day but sometimes you'll be on jobs that could last all week.
- **What do you think are the most valuable skills have you learnt on your apprenticeship?** I've learnt lots of practical skills but more importantly I think the best skill I've gained so far is people skills, I feel more confident when talking to customers and working with people.
- **What is the job prospect/progression when you complete your apprenticeship?** Will be level 2 qualified as a Multi. A possible full time job and possibility to progress further up the company e.g. Field manager
- **Where do you see yourself in 5 years?** A full time Multi
- **What do you like best about being an Apprentice?** Learning from skilled tradesmen.
