

# New Anglia Transport Board

## Minutes

9:00am-11:00am Tuesday 12<sup>th</sup> February 2019

George Hines Room, Wherstead Park, Suffolk

### Board Attendance:

- Kerry Allen (KA), Suffolk County Council
- Paul Ager, Associated British Ports
- James Bradley (JB), Network Rail
- Nick Burfield (NB), Suffolk Chamber of Commerce
- David Cumming, (DC), Norfolk County Council
- Jonathan Denby (JD), Greater Anglia
- Cllr Mary Evans (CllrME), Suffolk County Council
- Doug Field (DF), Chair, New Anglia LEP
- Ellen Goodwin (EG), New Anglia LEP
- Hannah Grimes, Norfolk County Council
- Paul Horne, Suffolk County Council
- Tom Lawman (TL), Highways England
- Graeme Mateer (GM), Suffolk County Council
- Richard Pace (RPace), Norwich Airport
- Richard Perkins (RP), Suffolk Chamber of Commerce
- Alex Riley, New Anglia LEP
- Rajinder Sharma, Transport Systems Catapult
- Chris Soule, Country Landowners Association
- Andy Walker, Suffolk Chamber of Commerce
- Cllr Martin Wilby (CllrMW), Norfolk County Council

### Apologies:

- Simon Amor, Highways England
- Ali Clabburn, Liftshare
- Jonathan Cage, Norfolk Chamber of Commerce
- Cllr Stuart Clancy, Norfolk County Council
- Paul Davey, Hutchison Ports
- John Dugmore, Suffolk Chamber of Commerce
- Nova Fairbank, Norfolk Chamber of Commerce
- Jonathan Rudd, New Anglia LEP
- Oliver Starbuck, East Midlands Trains
- Richard Taylor, Network Rail
- Richard Tunnicliffe, CBI
- Steve Wickers, First Group

## Key Actions List

Action	Responsible
Update the Terms of Reference to better reflect the relationship with Transport East	EG
Chamber and LEP to write to Roads Minister regarding A14 inclusion in RIS2	NB/AW
The LEP to support the consultation response to the Aviation 2050	RPace
Prioritise delivery into lobbying and local activities and set up task and finish groups as appropriate	EG
Write a letter to the Roads Minister regarding the delivery of A47 RIS1 schemes	EG
Transport East recommendations to be brought to the next Transport Board meeting for sign-off	DC
Move the August Transport Board meeting to September.	EG

### 1. Welcome and introductions

DF welcomed attendees and the meeting commenced.

### 2. Minutes and matters arising

The minutes of the previous meeting were approved by the Board.

### 3. Terms of Reference and purpose

DF informed the Board that, following the LEP Governance Review the Terms of Reference (ToR) have been amended. EG noted that they are largely the same, though the amendments reflect the aims of the Integrated Transport Strategy.

RP suggested that the ToR reflect the relationship with Transport East.

**The Board approved the amended Terms of Reference.**

### 4. Suffolk Chamber of Commerce view

RP provided the Board with a presentation from the Suffolk Chamber of Commerce. With a particular focus on the A14, A1307, Haughley and Ely Junction projects, Sizewell C and other transport priorities (Upper Orwell Crossings, Orwell Bridge, Lake Lothing Third Crossing, A47 enhancements, A11, and other road and rail enhancements).

The Board noted strong support for both the Ely and Haughley schemes but suggested that potentially the Haughley scheme could be actioned first – as the business cases are separate, nothing would prevent one scheme starting ahead of the other.

In terms of other rail priorities, it was suggested to the Board that, there is an appetite for the East Suffolk line to improve journey times.

DF informed the Board, that from a LEP perspective they would be happy to be a co-signature for A14 improvements. In terms of the Haughley and Ely schemes, the LEP would support any method that would ensure these schemes are delivered – whether in combination or not. Also, on Sizewell C the LEP will be liaising with the relevant councils and the Suffolk Chamber of Commerce to align responses to the current consultation.

Special note was given to the fact that this would be Nick Burfield's last Transport Board meeting. The Board extended a personal thanks to Nick.

## **5. Brexit and the Local Industrial Strategy**

### Brexit

EG provided the Board with a general update on Brexit, drawing attention to the Brexit page on the LEP website: <https://newanglia.co.uk/tag/brexit/>

DF noted that the planned UK's Shared Prosperity Fund will likely be the replacement to EU funding. NB suggested joint responses to any consultation to avoid duplication.

### Local Industrial Strategy

EG provided the Board with a short presentation on the planned Local Industrial Strategy (LIS) which will focus on productivity and earning power for people particularly in the comparative strength areas of Agri-Food, ICT/Digital and Clean Energy.

The LIS is still in the evidence gathering stage, and work will follow with stakeholders to enhance the qualitative and quantitative information. There will be a summit on March 5<sup>th</sup> to test the current assumptions.

NB noted the importance of the Ports & Logistics sector and asked whether the current comparative strength areas will be tested against national indicators to ensure they are the correct choices. DF assured the Board that the LIS will not replace the Economic Strategy developed earlier, which includes a list of key sectors, and that all assumptions in the LIS will be tested.

DF asked if the Transport Catapult were focussing on any particular grand challenges. RS responded that they are focussed particularly on the future of mobility as well as decarbonisation.

It was announced that the Transport Systems Catapult will be uniting with the Future Cities Catapult to form a new 'Super-Catapult' which will start work in April. There will be no reduction in resources or funding as part of this merger.

## **6. Member Roundtable: how are you 'Making the Strategy' happen?**

The Board discussed how to deliver the Integrated Transport Strategy.

RPace noted the challenges that the aviation sector faces. Aviation 2050 is currently in the consultation stage and will be the best way of influencing growth in the sector. There will be a focus on regional growth, place and intermodal connectivity in terms of Norwich Airport's response – LEP support was requested.

JD noted that the LEP are prioritising the right projects, but there needs to be continued momentum behind GEML, Haughley and Ely. There also needs to be lobbying support for increasing the frequency of the Ipswich-Peterborough rail route.

CllrME agreed that lobbying is pivotal. Encouraging MPs and ensuring they cannot ignore the major projects. There needs to be a single voice when lobbying.

The Board agreed with a 'two-pronged approach' of focussing on projects with our ability to deliver, and items that are not in our hands. Noting the task and finish groups could be set up to push through local delivery.

TL noted the commitment in terms of delivery on the A47. It is expected that there will be a full RIS2 announcement towards the end of this year. CllrMW noted the lack of speed on delivery in terms of RIS1. NB noted there was no investment in Suffolk in RIS1.

DC suggested prioritising two or three focus projects. DF noted that the LEP Board has already suggested this and will be sending out template to seek information in due course.

## **7. Strategic Rail Update**

KA provided the Board with a strategic rail update, focussing on East-West Rail.

KA pointed to the Eastern Section Evidence Base that was produced in 2017 – which looked at the economic value of enhancing services between Norfolk-Suffolk and Cambridge.

An East-West Rail Eastern Section Prospectus has also been produced which illustrates the economic benefits of the project.

In terms of next steps, a Communications Plan is currently in development – identifying the stakeholders who need to be targeted to drive forward the prospectus. This is working towards being in a position to develop an outline business case.

The Board noted that projects such as Ely would be complementary to East-West Rail and suggested having the business case ready so when funding is available it can be levered.

In addition to this, the national importance of the East-West Rail link was noted, with the danger being that the focus is primarily on the Cambridge-Oxford section. The evidence illustrates the benefits of the wider project and this needs to be made clear to Government.

## **8. Transport East Update**

DC updated the Board on Transport East, noting the outputs of the recent Transport East Summit.

Transport East is currently working on a transport strategy, with a regional evidence base needing to be submitted to DfT in the Summer. The ask within this is for Transport East to make recommendations on Major Road Network schemes (10 to 12 across the area) and Large Local Majors (2 to 3 across the area).

The recommendation for schemes will be brought to this Transport Board before sign-off – this will occur at the next Transport Board meeting.

## **9. Any other business**

It was agreed that the proposed August meeting would be moved to September in the Transport Board Forward Plan.

The next Transport Board meeting will focus on innovation and the 'agile to change' theme.

RS informed the Board that the Catapult has opened a regional office in Glasgow and will open another in Leeds. They are looking to develop SME and academic engagement and would welcome any local suggestions.

<https://ts.catapult.org.uk/news-events-gallery/events/transport-cafe-support-and-networking-event-rail/>

JD noted that new trains will be rolled out in the middle of the summer. To accommodate this, the platform at Sheringham Station will be lengthened and widened.

GM informed that at the Tommy Flowers Institute, Adastral Park there will be an event on the future of transport from the 5<sup>th</sup>-6<sup>th</sup> March.

The next meeting will be on the 21<sup>st</sup> May 2019 in Norfolk at Liftshare's Offices, Norwich
